

## Thank you letter and Cartoon

### Our stunning victory - one for the people

A big thank you to all who had the perseverance to see this latest tax revolt decision through. I sat through the first 90 minutes of the hearing with Judge Adams until called away. I rejoiced at watching Ms. Fulstone expertly weave her way through testimony and prior decisions. Although not surprised I also witnessed an elected official, stall, stumble and deny his statutory responsibility to refund an overpayment in a timely fashion. A man who could only see the “impossible” task before him. I felt sorry that he would go home last night and face his family and describe how he defended his position, never once considering who he ultimately works for “US.”

You and your team are brave patriots who saw a wrong and brought justice to correct it. I applaud you! As for me it is not about the refund but the heart of a lion who is not afraid to address a government who is only empowered to serve its people.

Please share my heartfelt thanks with the team.
