

Barta on the mark

letters to the editor

February 16, 2007

Les Barta's letter, which appeared in Sunday's paper, is right on the mark. The Washoe County Assessor's office, the State taxing authorities and their legal beagles are playing us. The open defiance of the Supreme Court decision, the collusion and deceptions used to keep tax money illegally and unconstitutionally gained from Incline Village/Crystal Bay property taxpayers is absolutely appalling.

Their tactic is simple. Use every means possible to frustrate and break us. That's not going to happen. Maybe now is the time to

summon 60 Minutes to expose their gambit nationally and time to call for federal intervention such as a Grand Jury probe into this incestuous and corrupt effort to circumvent the Constitution and the ruling of the Supreme Court. This is corruption at its worst. We cannot let them get away with it.

Chuck Otto
Incline Village resident
